It provides an alternative to ivory, so the slaughter of elephants is reduced.

Create Jobs

Demand for hand crafted tagua provides much needed jobs for farmers and artisans.

Prevent Deforestation

MEET & SUPPORT

HUMBLE AND TALENTED FIBER & PELT ARTISANS FROM PERÚ.

An Afternoon With Robert & Beatriz in Cieneguilla

In the heart of Cieneguilla, nestled amidst the stunning landscapes of Peru, we had the privilege of meeting Robert and Beatriz, skilled artisans, who together run a thriving fair trade business. Their commitment to craftsmanship and dedication to their trade embody the values of honesty, humility, and hard work that we deeply cherish.

We were warmly welcomed into the world of Robert and Beatriz. Robert's family is deeply engaged in this trade, although their focus extends beyond pelts, encompassing a diverse range of home goods and more. Robert devotes his craftsmanship to creating enchanting toys and figurines.

This remarkable couple, parents to two young children aged 5 and 9, are shining examples of individuals who make a difference. During our visit, they introduced us to a

delightful ice cream stand nestled below their home, managed by Beatriz' family. The joy that radiated from their faces as they shared their favorite fruit flavors with us left an indelible mark on our hearts.

Why Work With Alpaca?

Alpacas are lovingly raised and sheared in various regions, bolstering local economies. The wool harvested is then transformed by artisans from all corners of the country into an array of beautiful goods.

Alpacas are never raised for their fur alone; rather, their fur is a byproduct of their vital role as a source of sustenance for Andean communities. This commitment to ethical

and sustainable practices ensures that the well-being of both artisans and the environment is upheld, creating a harmonious coexistence that we wholeheartedly support.

Elizabeth, artisan liaison, and Robert review models of the new Alpaca Penguin.

Alpaca Playthings: Soft and luxurious, all of our animals are made from alpaca fleece and feature varying colors. Made in Perú.

Pooh Paper Products

For generations, farmers and elephants have competed for land. But rather than killing elephants for eating crops, farmers are now learning that these gentle giants are worth far more alive.

As elephants eat, they turn vegetation into fibers that are made into paper products. In the process, good-paying jobs are created, and everybody benefits.

MEET THE ARTISANS

Roger and Santodio live in Chulucanas, Perú, a town famous for the pottery made by its residents. They both began working with clay at a young age, observing their elders create the pottery that gave fame to the city. Today, they represent two generations supporting this culturally representative artform, featuring a striking use of negative space and a unique firing process that gives these collectibles their mesquite smell.

Receive informational cards with every purchase of Chulucanas Pottery! 5" x 8" posters are also available by request.
